

La princesse et la grenouille

Le prince a été transformé en grenouille et doit recevoir un baiser de la princesse pour retrouver sa véritable apparence. Pour savoir quelle grenouille la princesse doit embrasser, il ne faut emprunter que des cases comportant un nombre multiple de 3.

A path of numbers is shown, starting from a princess on the left and ending at a prince-frog on the right. The path consists of circles containing numbers, with some circles containing a frog icon. The numbers are arranged in a roughly triangular shape, starting with a circle containing the number 3 on the left. The path ends with a circle containing a frog icon on the right. The numbers in the circles are: 3, 742, 123, 71, 48, 19, 84, 792, 352, 479, 78, 88, 54, 36, 93, 16, 433, 817, 991, 461, 245, 743, 531. There are four frog icons on the right side of the path, each in a circle.
